

## External Butt Weld Bead Removal Tool 900mm

The Caldertech External Bead Removal Tool 900 is a high quality tool designed for the removal of external beads formed as a result of the butt fusion welding process, for HDPE pipe sizes 500-900mm.

The tool will peel the bead away from the pipe's surface whether it's hot or cold, leaving a flush finish and enabling the pipe to be smoothly slip-lined into a larger diameter pipe, as well as a closer inspection of the weld to detect potential defects.

Changeable Blade

### FEATURES

- Simple and easy to use
- Adjustable guides for correct pipe diameter 500mm-900mm
- Bead width up to 40mm
- Changeable blade

Code	Description
01-07-525	External bead removal tool 500-900mm
01-07-526	Cutting blade for butt weld bead up to 40mm
